

Lake Baikal

- Mary Zueva,
- Gymnasium №1

The Baikal is the gem of Siberia. I live not far from lake Baikal in Angarsk.

The Baikal is the purest and the deepest lake in the world. It is the most beautiful place for people to have a rest. A lot of tourists visit lake Baikal every summer.

It is the oldest lake in the world - its age is about 25-30 million years. Unique animals live in the Baikal. More than 80% of the animals are endemic: Baikal seal or nerpa, Golomyanka or Baikal oilfish, omul.

**My family likes to spend our summer holidays
at the Baikal.**

**Thank you
for your time!**
